Chandramani Shakya
Cloud Adoption Consultant

SUMMARY

- Experienced Cloud Adoption Consultant with expertise in planning, executing, and managing large-scale migrations from on-premises infrastructures to the Microsoft Azure cloud.
- Conducts cloud readiness assessments and provides detailed migration roadmaps, ensuring smooth transitions to the cloud with minimal downtime.
- Supports the pre-sales team with technical assessments and collaborates closely with the implementation team to ensure successful project execution.
- Proven track record of developing and enforcing cloud governance frameworks, implementing robust security measures, and optimizing cloud performance and costs.
- Adept at leading cross-functional teams, managing stakeholder expectations, and delivering tailored cloud solutions that align with business objectives.
- Ensures the engineered environment meets business requirements, application design, and infrastructure specifications, being accountable for platform integration performance and efficiency.
- Hands-on architecture experience, including design work and participation in design and code reviews.
- Experienced in handling internal and external audits.
